'Learn to do your own makeup like a pro' is a personal and unique makeup lesson, allowing clients to gain the knowledge of which colours and products will complement their skin tone/type and how to apply these products correctly. This in-depth lesson allows enough time for a full face to be completed.

You will be asked at the beginning of the lesson what is your biggest concern and what exactly you expect to get out of your lesson so that we can make your vision a reality.

*You do not need to bring along any makeup for this class, we will provide all products
